

## The Graphene Crowdfunding Arena

Graphene-Info has teamed up with Seedrs to offer graphene companies an innovative and effective way to raise capital and grow their businesses. Crowdfunding can work as an alternative to, or in tandem with, angel or venture financing, allowing businesses to obtain a diverse range of value-added capital.

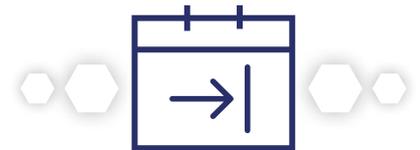

### Investor Outreach

Take advantage of the largest investor base in Europe coupled with the world's largest graphene community

### Full Support

Enjoy comprehensive support on all business plans, presentations and legal documents involved

### The Day After

Engage in post-raise marketing campaigns that will expose your business to potential customers and partners on Graphene-Info

### Single Point of Contact

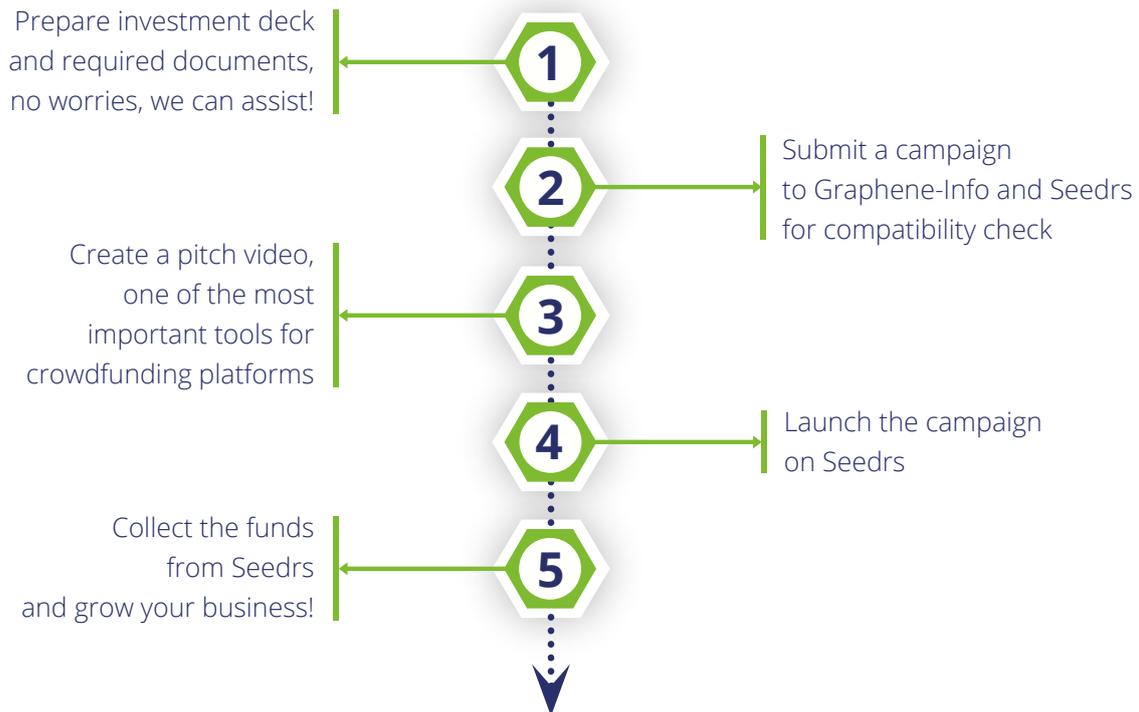

Hassle-free investor relations with Seedrs acting as a single legal shareholder on behalf of all investors

### Results

Seedrs had a market dominating 74% campaign success rate in 2017

## How Does it Work?

Interested companies should approach Graphene-Info (at [info@graphene-info.com](mailto:info@graphene-info.com)) for more information on the next steps.

Crowdfunding is open to businesses of all stages, but usually early-stage companies with a unique and easy-to-understand product, technology or business model are more suitable.

The Graphene Crowdfunding Arena welcomes companies from all over the world. Seedrs accepts investors from the EU, EEA and many other countries, including Israel, Switzerland, India, Brazil, Hong Kong, Russia, Singapore and Malaysia, as well as institutional investors incorporated in all these countries.

## About Seedrs and Graphene-Info

Seedrs is Europe's most active equity crowdfunding platform, with over 600 funded deals and more than £350M invested into campaigns on the platform. It allows all types of investors to invest as little or as much as they like and ambitious businesses in all sectors to raise capital and build community through its efficient online process

Graphene-Info, launched in 2009, is the world's leading graphene portal and publication, enjoying a wide-reach into the graphene industry, with over 40,000 monthly readers and over 15,000 subscribers.

Graphene-Info provides a multitude of services to the nascent graphene industry based on extensive and up-to-date knowledge hub and close ties with industry leaders.
